It's amazing, they really exist:
Therapists who help CFS patients to
recover without prejudices, risky
remedies, useless interpretations
and excessive costs

....and are happy to get
one or two dog biscuits
in return.

April

In a short time we will probably be able to prove with scientific evidence, that CFS is a global conspiracy of difficult patients.

June

This canyon reminds me of CFS. It caused a similar break in my plans for the future and it's impossible to get back to the side where I started from.

This must be Charly's July ration of vitamins and minerals. Patients like him are a guarantee of economic success for the pharmaceutical industry.
